SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name: Immersion Oil Type B **Product code:** MXA20352: 1fl.oz

Unique Formula Identifier:

1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Microscope Immersion Oil

(SU24: Scientific research and development)

Uses advised against: No information

This product should be used under the following conditions;

-Pressure: 101,32 kPa (760 mm Hg)

-Temperature: 7°C to 40°C (45°F to 104°F)

-in a non misted/non airborne state

-in a room having normal air changes/hour

-in a trained and supervised laboratory/industrial setting using standard Good laboratory/Good

Manufacturing procedures

1.3. Details of the supplier of the safety data sheet

Name of importer: Nikon Europe B.V.

Department in Charge Marketing

Address Stroombaan 14, 1181 VX Amstelveen, The Netherlands

Telephone number +31-20-7099-000

Fax number —

e-mail address microscope.eu@nikon.com

Name of manufacturer Cargille Laboratories

Address 55 Commerce RoadCedar Grove, NJ 07009-1289 USA

Name of supplier in Japan:NIKON CORPORATIONDepartment in ChargeHealthcare Business Unit

Address Yokohama Plant

471, Nagaodai-cho, Sakae-ku, Yokohama, Kanagawa 244-

8533

 Telephone number
 +81-45-853-8608

 Fax number
 +81-45-853-8485

e-mail address —

1.4. Emergency telephone number

at 9 a.m ~5 p.m JST +81-45-853-8608

Page2 of 14

Date of issue: 28 APRIL, 2016 Date of revision: 17th MAY, 2023

SDS20352-eu-3

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification in accordance with Regulation (EC) No 1272/2008:

Skin Irrit.2: H315 STOT SE.3: H335 STOT RE.2: H373 Aquatic Chronic.1: H410

2.2. Label elements

Hazard pictograms

Signal word Warning

Hazard Statements H315: Causes skin irritation

H335: May cause respiratory irritation

H373: May cause damage to liver through prolonged or

repeated exposure

H410: Very toxic to aquatic life with long lasting effects

Precautionary Statements

[Prevention] P260: Do not breathe dust/fume/gas/mist/vapours/spray.

P264: Wash hands thoroughly after handling. P273: Avoid release to the environment.

P280: Wear protective gloves/protective clothing/eye

protection/face protection/hearing protection.

[Emergency response] P314: Get medical advice/attention if you feel unwell.

P391: Collect spillage.

Supplemental hazard information Not applicable

2.3. Other hazards

Hydrogenated terphenyls meets the criteria for vPvB according to Regulation (EC) No 1907/2006, Annex XIII.

The product does not have substances identified as having endocrine disrupting properties according to Regulation (EU) 2017/2100.

SECTION 3: Composition/information on ingredients

3.1. Substances Not applicable

3.2. Mixtures

Product Name: Immersion Oil Type B

Page3 of 14 Date of issue: 28 APRIL, 2016

Date of revision: 17th MAY, 2023

SDS20352-eu-3

SECTION 4: First aid measures

4 1	T	•	·······································	e	. • .	
4.1.	Descr	ıntıon	OΤ	TIPST	ดาต	measures
		10011	0.		***	III CHOUI CO

GENERAL ADVICE If you feel unwell, call doctor/physician.

IF INHALED Supply fresh air; consult doctor in case of complaints.

IF ON SKIN Immediately wash with water and soap and rinse thoroughly.

If skin irritation continues, consult a doctor.

IF IN EYES Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If

symptoms persist, consult a doctor.

IF SWALLOWED Rinse out mouth and then drink plenty of water.

Do not induce vomiting; call for medical help immediately.

Self-Protection of the First Aider Wear appropriate eyes and skin protective equipment.

^{**} Full texts of relevant hazard statements and risk phrases can be seen in SECTION 16 of this SDS.

Page4 of 14

Date of issue: 28 APRIL, 2016 Date of revision: 17th MAY, 2023

SDS20352-eu-3

4.2. Most important symptoms and effects, both acute and delayed

Gastric or intestinal disorders when ingested.

Causes skin irritation.

May cause respiratory irritation.

May cause damage to liver through prolonged or repeated exposure.

4.3. Indication of any immediate medical attention and special treatment needed

If medical advice is needed, have product container or label at hand.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media:

Foam, fire-extinguishing powder, gaseous extinguishing agents, carbon dioxide, water haze or fog

Unsuitable extinguishing media

Water with full jet

5.2. Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

5.3. Advice for firefighters

Wear self-contained respiratory protective device.

Wear fully protective suit.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:

Wear protective equipment.

For emergency responders:

Keep unprotected persons away.

Ensure adequate ventilation.

6.2. Environmental precautions

Do not allow to enter sewers/ surface or ground water.

Inform respective authorities in case of seepage into water course or sewage system.

6.3. Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Send for recovery or disposal in suitable receptacles.

6.4. Reference to other sections

Refer to "SECTION 8: Exposure controls/personal protection" and "SECTION 13: Disposal considerations" as appropriate.

Page 5 of 14 Date of issue: 28 APRIL, 2016

Date of revision: 17th MAY, 2023

SDS20352-eu-3

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Protective measures:

Avoid splashes or spray in enclosed areas.

Advice on general occupational hygiene:

Keep away from foodstuffs, beverages and feed.

Take off contaminated clothing and wash it before reuse.

Wash hands before breaks and at the end of work.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures:

No special measures required.

Incompatible materials:

Store away from oxidisers, strong acids, strong bases.

Conditions for safe storage:

Avoid storage near extreme heat, ignition sources or open flame.

Store in a well-ventilated place. Keep cool.

Store away from foodstuffs.

Further information about storage conditions:

Storage Temperatures: 65 - 90°F/18 - 32°C.

Keep container tightly sealed.

Packing material:

Use a sealed container without damage or leakage.

7.3. Specific end use(s)

Microscope Immersion Oil

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Acceptable concentration (exposure limit, biological exposure index)

EU IOELV (2017) 2 ppm, 19 mg/m³ (Hydrogenated terphenyls)

Long-term exposure limit values

(8 hours)

EU IOELV (2017) 5 ppm, 48 mg/m³ (Hydrogenated terphenyls)

Short-term exposure limit values

(15 minutes)

ACGIH TLV-TWA (2022) Applicable (Hydrogenated terphenyls)

Page6 of 14

Date of issue: 28 APRIL, 2016 Date of revision: 17th MAY, 2023

SDS20352-eu-3

ACGIH TLV-STEL (2022) Applicable (Terphenyl)

8.2. Exposure controls

Appropriate engineering controls:

The usual precautionary measures are to be adhered to when handling chemicals.

Do not inhale gases/fumes/aerosols.

Avoid contact with the eyes and skin.

Personal protective equipment:

Respiratory protection Not required under normal conditions of use.

Hand protection Protective gloves

The glove material has to be impermeable and resistant to the

product/the substance/the preparation.

Eye protection Safety glasses

Follow relevant national guidelines concerning the use of

protective eyewear.

Skin and body protection Protective work clothing

Environmental exposure controls

Prevent product from entering drains.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state Oily liquid

Colour Colourless to light yellow

Odour Slight odour

Melting point/freezing point 0°C

Boiling point or initial boiling point 340°C (1 atm/1.0132 bar)

and boiling range

Flammability

Lower and upper explosion limit

Flash point

Auto-ignition temperature

Decomposition temperature

pH

SECTION 10: Stability and reactivity

10.1. Reactivity

No further relevant information available.

Page8 of 14

Date of issue: 28 APRIL, 2016 Date of revision: 17th MAY, 2023

SDS20352-eu-3

10.2. Chemical stability

Stable under normal temperatures and pressures.

10.3. Possibility of hazardous reactions

Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised.

10.4. Conditions to avoid

Excessive heat.

Store away from oxidising agents.

10.5. Incompatible materials

Reacts with strong oxidising agents.

Reacts with strong acids and alkali.

10.6. Hazardous decomposition products

No decomposition if used and stored according to specifications.

Under fire conditions only: Carbon monoxide and carbon dioxide

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Information on product:

Acute toxicity (oral):

Acute toxicity (dermal):

Acute toxicity (inhalation: gas):

Acute toxicity (inhalation: vapour):

Acute toxicity (inhalation: dust/mist):

No information

No information

Skin corrosion/irritation: Causes skin irritation.

Irritating to skin.

No information Serious eye damage/irritation: No information Respiratory sensitization: No information Skin sensitization: No information Germ cell mutagenicity: No information Carcinogenicity: No information Reproductive toxicity: No information STOT-single exposure: No information STOT-repeated exposure: No information Aspiration hazard:

Other toxicological information Probable routes of exposure:

Ingestion, Inhalation, Eye contact, Skin contact.

Information on ingredients:

Paraffins (petroleum), normal C₅₋₂₀

Acute toxicity (oral):

Acute toxicity (dermal):

No information

No information

Page9 of 14

Date of issue: 28 APRIL, 2016 Date of revision: 17th MAY, 2023

SDS20352-eu-3

Acute toxicity (inhalation: gas): No information Acute toxicity (inhalation: vapour): No information No information Acute toxicity (inhalation: dust/mist): No information Skin corrosion/irritation: No information Serious eye damage/irritation: No information Respiratory sensitization: No information Skin sensitization: No information Germ cell mutagenicity: No information Carcinogenicity: No information Reproductive toxicity: No information STOT-single exposure: No information STOT-repeated exposure:

Aspiration hazard: May be fatal if swallowed and enters airways

Hydrogenated terphenyls

STOT-repeated exposure:

Acute toxicity (oral): Rat $LD_{50} = 6,600 \text{ mg/kg} - 17,500 \text{ mg/kg}$

Acute toxicity (dermal): Rabbit $LD_{50} > 2,000 \text{ mg/kg}$ Acute toxicity (inhalation): Rat $4hr-LC_{50} > 4.7 \text{ mg/L}$

Rat 4hr-LC₅₀> 4.3 mg/L (OECD TG 403, GLP)

Skin corrosion/irritation: In a skin irritation test with rabbits, moderate irritation was

observed.

Serious eye damage/irritation:

Respiratory sensitization:

No information

STOT-single exposure: About humans, there are descriptions that "irritation on an

upper respiratory tract and nausea symptoms are present" when aerosol was inhaled, and that "an airway is stimulated" in the acute inhalation exposure test employing rats", therefore, it classified into Category 3 (Respiratory tract irritation). In addition, the acute oral toxicity tests employing rats (OECD TG 401, GLP) has a description that "control of spontaneous movement, and dirt on hairs by diarrhea, feces and urine were seen with general findings, but necropsy findings were normal in all animals" by 10,000 mg/kg. Moreover, there is a description that "short term exposure

effect: eyes, skin, and respiratory tract are stimulated". In a 20-day dermal administration test with rabbits

(International Research and Development Corp. method, GLP) it was reported that "at 2,000 mg/kg there was no systemic toxicity", and in a 90-day oral administration study with rats (OECD TG 408, GLP) it was reported that "there were weight increase in the liver, kidney and adrenal gland

Nikon

Date of issue: 28 APRIL, 2016 Date of revision: 17th MAY, 2023

SDS20352-eu-3

(females only) and weight loss in female animals but no toxic effects related to administration of this substance in histopathological studies ". Also, in a 90-day aerosol inhalation exposure test with rats (OECD TG 413, GLP) there is a report of "weight loss, increased liver weight and chromodacryorrhea", and in a 182-day aerosol inhalation exposure test with rats (Industrial Biotest Laboratory, Inc. method) there is a report of "an increase in SGOT, SAP and

SGPT, a reduction in BUN and an increase in liver weight".

Aspiration hazard: No information

Butene, homopolymer (products derived from either/or But-1-ene/But-2-ene)

Acute toxicity (oral):

Acute toxicity (dermal):

Acute toxicity (inhalation):

No information

No information

Skin corrosion/irritation: Causes skin irritation

11.2. Information on other hazards

11.2.1. Endocrine disrupting properties

All substances are not listed in the candidate list as having endocrine disrupting properties.

Page11 of 14

Date of issue: 28 APRIL, 2016 Date of revision: 17th MAY, 2023

SDS20352-eu-3

11.2.2. Other information

Gastric or intestinal disorders when ingested.

SECTION 12: Ecological information

12.1. Toxicity:

Information on product:

Acute (short-term) toxicity: No information

Chronic (long-term) toxicity: Very toxic to aquatic life with long lasting effects.

Information on ingredients:

Paraffins (petroleum), normal C₅₋₂₀

Acute (short-term) toxicity: No information Chronic (long-term) toxicity: No information

Hydrogenated terphenyls

Acute (short-term) toxicity: No information

Chronic (long-term) toxicity: May cause long lasting harmful effects to aquatic life.

Butene, homopolymer (products derived from either/or But-1-ene/But-2-ene)

Acute (short-term) toxicity: No information Chronic (long-term) toxicity: No information

Terphenyl

Acute (short-term) toxicity: No information

Chronic (long-term) toxicity: Very toxic to aquatic life with long lasting effects.

12.2. Persistence and degradability:

Information on product: No information

Information on ingredients:

Paraffins (petroleum), normal C₅₋₂₀

No information

Hydrogenated terphenyls

No information

Butene, homopolymer (products derived from either/or But-1-ene/But-2-ene)

No information

Terphenyl

No information

Page12 of 14

Date of issue: 28 APRIL, 2016 Date of revision: 17th MAY, 2023

SDS20352-eu-3

12.3. Bioaccumulative potential:

Information on product: No information

Information on ingredients:

Paraffins (petroleum), normal C₅₋₂₀

No information

Hydrogenated terphenyls

No information

Butene, homopolymer (products derived from either/or But-1-ene/But-2-ene)

No information

Terphenyl

No information

12.4. Mobility in soil:

Information on product: No information

Information on ingredients:

Paraffins (petroleum), normal C₅₋₂₀

No information

Hydrogenated terphenyls

No information

Butene, homopolymer (products derived from either/or But-1-ene/But-2-ene)

No information

Terphenyl

No information

12.5. Results of PBT and vPvB assessment:

Hydrogenated terphenyls meets the vPvB criteria.

12.6. Endocrine disrupting properties:

All substances are not listed in the candidate list as having endocrine disrupting properties.

12.7. Other adverse effects:

No information

SDS20352-eu-3

13.1. Waste treatment methods

Nikon

Must not be disposed together with household garbage. Do not allow product to reach sewage system. The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and non-hazardous wastes.

SECTION 14: Transport information				
14.1. UN number or ID number	3082			
14.2. UN proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE,			
	LIQUID, N.O.S (Terphenyl)			
14.3. Transport hazard class(es)	9			
14.4. Packing group	III			
14.5. Environmental hazards	Applicable			

14.6. Special precautions for user

Not regulated when carried in single or combination packaging containing a net quantity of 5 L or less for liquids or 5 kg or less for solids.

14.7. Maritime transport in bulk according to IMO instruments

Not applicable

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.

Hydrogenated terphenyls (Concentration: 25 - 50%) of this product is listed in REACH - Candidate List of Substances of Very High Concern for Authorisation.

15.2. Chemical safety assessment

Not conducted

SECTION 16: Other information

Update history:

Date of issue: 17 th MAY, 2023
